

# WHAT ARE THE RULES?

## MAKE ORGANICS AND RECYCLING SUCCESSFUL WITH THESE HELPFUL TIPS:

- Educate employees, tenants, and janitorial services on how to properly sort and dispose of trash, recycling, and organics in the correct containers.
- Provide properly labeled and colored containers together in common areas to encourage proper sorting of recyclable and compostable materials from the trash.
- Use only BPI certified compostable bags for organics, which can be placed directly in the WM organics cart/bin. Make sure to empty the recyclables loose in the WM recycling cart/bin without the bag to avoid contamination.

## HAZARDOUS WASTE DISPOSAL

Hazardous waste items such as paint, batteries, oil and other flammable or toxic substances are illegal to throw in the trash, recycling or organics containers. Businesses can properly dispose of their hazardous materials at the Yolo County Landfill as a small quantity generator. Visit [yolocounty.org/landfill](http://yolocounty.org/landfill) or call **530-666-8856** for more information.

## CONTAMINATION AND OVERAGES

Materials must be properly sorted and fit inside carts and bins with enough room to allow the lid to close. Carts and bins with excess materials or the wrong materials in the wrong container could result in fines for the account holder. Excess and erroneous materials in containers present environmental, service and safety risks.

1324 Paddock Place  
Woodland CA, 95776

## COMPOSTING & RECYCLING NOW THE LAW

**When food scraps, food-soiled paper, and yard waste break down in a landfill, they produce methane, a potent greenhouse gas that contributes to climate change.**

Effective January 2022, state law (SB 1383) requires all residents and businesses to recycle and keep compostable materials out of California's landfills by placing them in an organics container for composting. For more information, visit the City of Woodland's SB 1383 webpage at [www.EnviroWoodland/SB1383](http://www.EnviroWoodland/SB1383).

# RECYCLING

Empty Plastic Bottles, Milk Jugs, Rigid Plastic Containers

All Metal Beverage & Food Cans, Empty Aerosol Cans, Clean Aluminum Pans & Foil

Glass Bottles & Jars (Even broken)

Clean Paper, Magazines, Newspaper, Cardboard, Junk Mail

Polystyrene Foam & Plastic Bags

Paints, Pesticides, Household Hazardous Waste

Food

Avoid contamination charges. Do not put plastic bags in your recycling. Bagged recyclables are mistaken as trash on the sorting line and may be subject to contamination fees.

Keep food, liquid, and hazardous waste out of recycling. These items ruin recyclables and can be dangerous.

# ORGANICS

Grass, Weeds, Green Plants, Dead Plants and Leaves  
Tree Limbs, Wood Chips, Untreated Wood, Brush, Garden Trimmings & Palm Fronds

Food Scraps, including Fruits, Vegetables, Egg Shells, Meat, Bones, Shellfish and Cheese

Food-Soiled Paper, including Paper Towels, Napkins, Paper Containers, Paper Cups, Milk Cartons, Tea Bags, Coffee Filters and Greasy Pizza Boxes

Glass and Plastic Bottles & Jars

Metal and Aluminum Cans

Polystyrene Foam & Plastics

Pet Waste

Paints, Pesticides, Household Hazardous Waste

Sod

Dirt & Rocks

# TRASH

Snack & Chip Bags, Candy Wrappers

Drink & Beverage Boxes / Pouches (Multi-material Packaging)

Plastic Wrap, Bags & Other Plastic Film

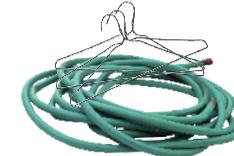

Broken Glass & Dishes

Diapers & Pet Waste

Disposable Gloves, Hairnets, Masks

Hoses, Cords & Wire

Polystyrene Foam & Packaging

Cup Lids, Plastic Utensils, Plastic Straws

Electronics

HHW

Food Scraps

If you bag your organics/food waste, please use only BPI certified compostable bags. Please place all yard waste into your cart or bin. Street piles will not be collected for commercial accounts.

BPI®

Right Size your containers and services to avoid overages and contamination. Please contact customer service for a free waste assessment. (530) 662-8748 or [woodlandorganics@wm.com](mailto:woodlandorganics@wm.com)
