

You must wear a facial covering in public

When to Wear a Facial Covering

Waiting in line or shopping at a store.

Picking up food at a restaurant.

At hospitals or pharmacies.

Going into facilities allowed to stay open.

When in a taxi or rideshare vehicle or on public transportation (or waiting).

At work, subject to your employer's Regulations.

When **NOT** to Wear a Facial Covering

At home.

Driving in a car alone or with others in your household.

Exercising outdoors.

If it will create a safety hazard at work.

Children under 2 must NOT wear a facial covering. They may suffocate.

If advised not to by your healthcare provider.

Children 2 years and older should be encouraged to wear a mask when they are around others closer than 6 feet. When they do, they must be supervised by an adult.

Covering your face does not change the shelter-in-place order, which requires people to stay home as much as possible and maintain physical distancing by staying 6 feet away from others. Face coverings need to cover your nose and mouth and can be made out of cloth materials, such as bandanas, scarves, t-shirts, or towels. For guidance on how to make or clean your facial covering visit the CDC website:
